Department of Commerce
INSURANCE DIVISION

COMMERCE BUILDING, SALEM, OREGON 97310 PHONE (503) 378-4271

April 1981

Ms. Jane F. Huston, Director
Department of Commerce
428 Labor and Industries Bldg.
Salem, Oregon 97310

Dear Ms. Huston:

In compliance with ORS 731.272, I am pleased to submit the Annual Report of the Insurance Division to you as Director of the Department of Commerce.

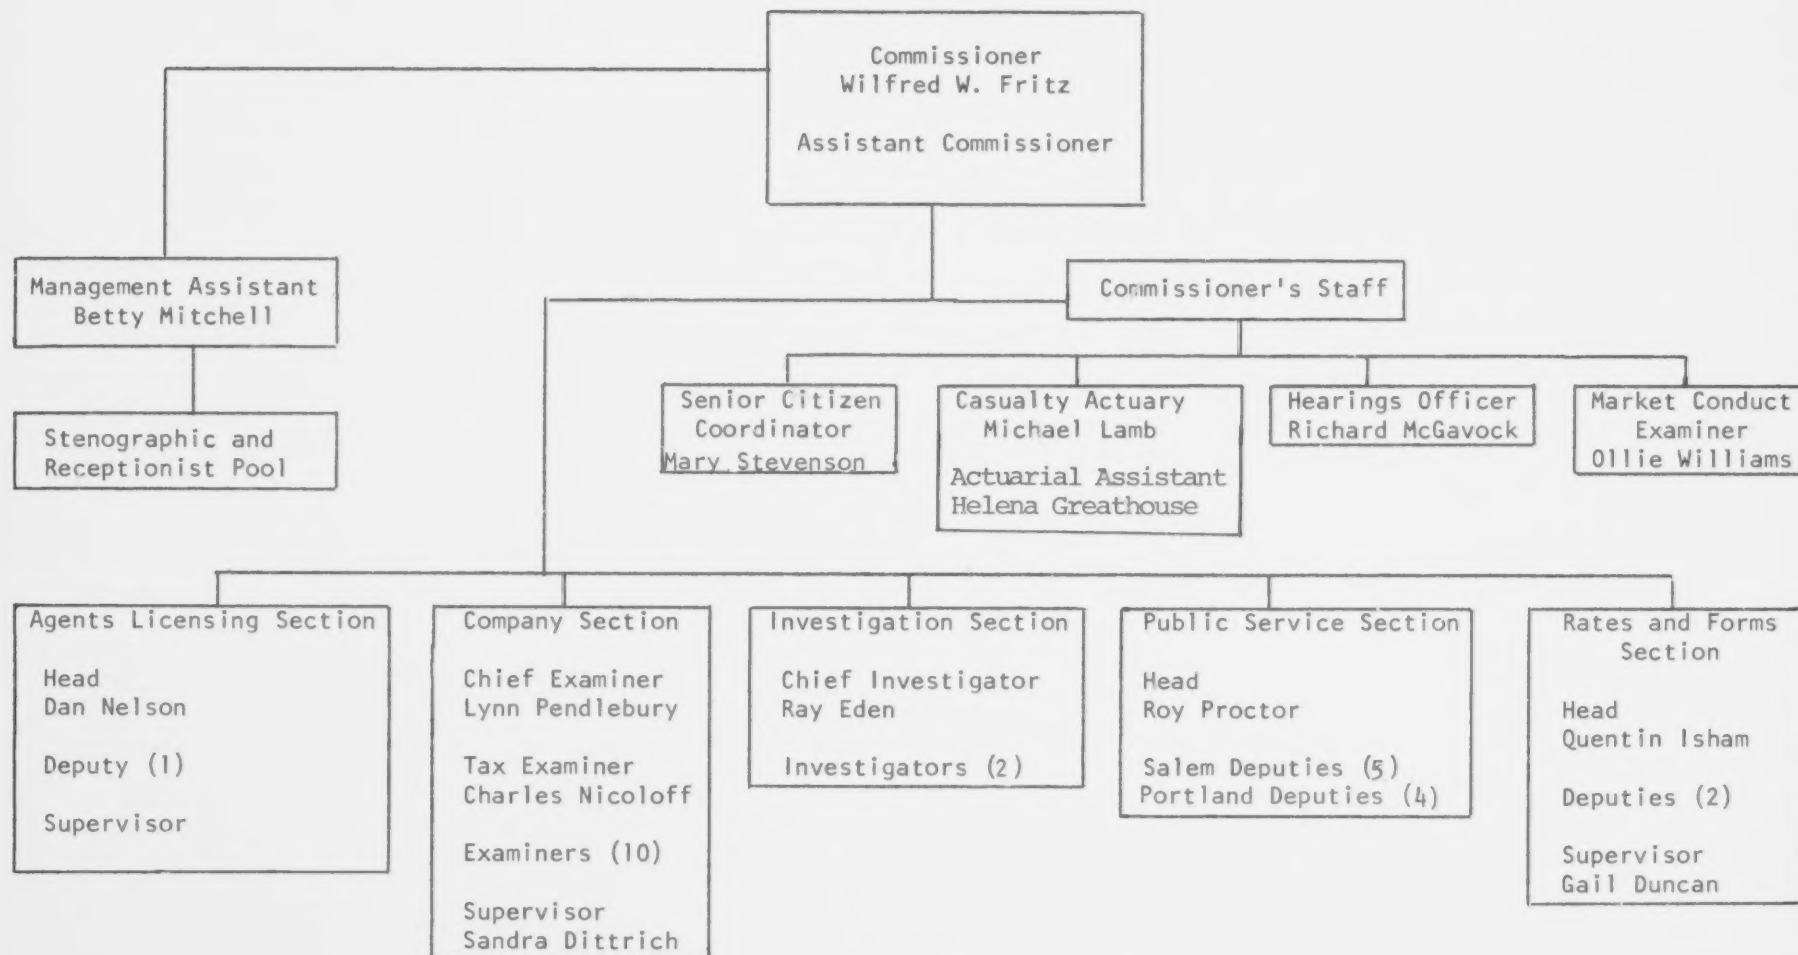

The requirements of subsections (2) and (3) of ORS 731.272 (directory of authorized insurers and terminations, liquidations and assets distribution) are submitted in separate publications.

Sincerely,

W. W. FRITZ
Insurance Commissioner

ORGANIZATION CHART

June 30, 1980

OPERATIONS OF THE INSURANCE DIVISION

AGENT'S LICENSING SECTION

This section is responsible for examining, investigating qualifications of and licensing insurance agents, adjusters and premium finance companies and administering programs of pre-license training and continuing education. Individuals and firms receive licenses and insurers file notices of appointment and termination of agents and agencies with this section.

During the 1979-80 fiscal year the section administered 6,220 exams to 3,159 applicants, with a pass rate of 84.9%. The section issued 5,969 new licenses, processed 16,076 new appointments, processed 15,357 appointment cancellations and renewed 123,874 appointments.

Beginning August 1, 1979, it began processing the first reports of completion under the continuing education law resulting in approximately 1,600 licenses revoked for failure to comply with the law, and an estimated 900 other agents dropping their licenses prior to final compliance date.

Total revenue processed by the unit was \$810,426 compared to \$807,964 for the preceding fiscal year, for an increase of 0.3%. The preceding year had shown an increase (1978/79 vs. 1977/78) of 13%. The decrease in rate of growth was caused by cancellation of over 2,500 licenses and accompanying appointments by the continuing education law. All other indicators continued to grow at an average rate of 7 to 8% (see below).

<u>Comparisons</u>	<u>1978/79</u>	<u>1979/80</u>	<u>% change</u>
Revenue	907,964	810,426	+ 0.3
Applicants examined	2,903	3,159	+ 8.8
Exam parts given	5,808	6,220	+ 7.1
Pass rate	76.9	84.9	+ 7.0
 New licenses, total	 2,973	 5,969	 +100.0
New appointments	14,747	16,076	+ 9.0
Renewal appts.	117,472	123,874	+ 5.4
Cancelled appts.	10,423	15,357	+ 47.3
 Active Agents	 16,020	 14,772	 - 7.8
Active Agencies	4,410	5,918	+ 34.2

Assistance was also afforded neighboring states in both continuing education/pre-license education planning and in computerization of records keeping functions, using the Oregon Insurance Record Information System as a model.

Staffing went from 8.5 personnel in June 1979 to 9.5 personnel in June 1980.

COMPANY SECTION

The Company Section is responsible for the following functions related to insurers:

1. Maintaining corporate document files on approximately 1,177 licensed insurers.
2. Reviewing annual financial statements and other indicators of the financial condition of licensed insurers, with special attention to insurers considered to be in a potentially hazardous condition.
3. Acting on applications by insurers to do business in Oregon.
4. Supervising the Oregon affairs of insurers placed in receivership, coordinating with the two private Oregon insurance guaranty associations.
5. Collecting premium taxes and annual fees from insurers, amounting to more than \$33,000,000 for fiscal year 1979-80.
6. Conducting examinations of financial condition and insurance operations at least once every three years of all insurers domiciled in Oregon; participating as representative of Oregon and Zone VI of the National Association of Insurance Commissioners in examinations of other insurers. As of June 30, 1980, 60 Oregon domiciled insurers and approximately 1,113 insurers domiciled elsewhere were licensed to transact business in Oregon. Examination expenses are reimbursed by the examined insurers as revenue to the State of Oregon General Fund. In fiscal 1979-80, there were 22 examinations of Oregon insurers, and participation in 7 examinations of out-of-state insurers.
7. Participating on subcommittees and task forces of the National Association of Insurance Commissioners relating to examinations and financial reporting of insurers.
8. Maintaining security deposits, by licensed insurers, amounting to approximately \$400,000,000.

As of June 30, 1980, the Company Section had the following staff:

Chief Insurance Examiner (Section head)	1
Supervising Tax and Financial Analyst	1
Field examiners	10
Market Conduct Examiner	1
Clerical supervisor	1
Clerk	1
TOTAL	15

INVESTIGATION SECTION

The Investigation Section develops evidence relating to alleged violations of the Oregon Insurance Code, primarily by field investigations, and conducts administrative contested case hearings which are related to that activity.

At the beginning of fiscal year 1979-80, the section had 57 pending cases and at yearend 63 cases. A total of 223 cases were handled to completion, 36 resulted in formal sanctions imposed by the Commissioner as follows:

Cease and Desist Orders	6
Civil Fines (\$39,950)	15
License Revocations	8
License Suspensions	1
Licenses Placed on Probation.	2
Licenses Subject to Suspension, Fine and Probation.	1
Licenses Subject to Revocation and Fine	1
Licenses Subject to Suspension and Probation.	2
	<u>36</u>

Two contested case hearing presentations were made by the section.

At the close of the fiscal year the Investigation Section was staffed by a Chief Investigator, two Deputy Investigators and two clerks.

PUBLIC SERVICE SECTION

The Public Service Section receives, evaluates and resolves a wide variety of insurance complaints from Oregon citizens. The statistical record of those written complaints is helpful in regulating the insurance industry, in monitoring trends and in evaluating proposed legislation.

Approximately 5,500 written complaints were serviced in fiscal year 1979-80. The distribution of complaints by insurance class was: 8% life, 30% health, 9% property, 41% automobile, 12% other lines. By nature of complaint, the distribution was: 48% claims, 15% sales and service, 13% underwriting, 16% premiums, 8% other.

The Public Service Section also responds to more than 20,000 general inquiries from the public annually. More than \$1.5 million is recovered annually for Oregon insureds by intervention of the Public Service Section.

Refinements in the system of complaint data processing and analysis helped stabilize the complaint load level in recent years. Neighboring states have shown considerable interest in this system and have adopted some of its features.

At the close of the fiscal year, the Public Service Section was staffed by five deputies in Salem, and four deputies and two secretaries in the Portland branch office.

RATES AND FORMS SECTION

The Rates and Forms Section has the responsibility for review and approval of all insurance policies offered for sale to the Oregon public, with certain exceptions such as group insurance.

In some cases the proposed advertising and marketing practices of insurers are reviewed. The reasonableness of benefits in relation to premiums also is the subject of consideration for some insurance lines.

Rate filings for property and casualty insurance are reviewed for compliance with the statutory requirements and that they not be excessive, inadequate or unfairly discriminatory.

For calendar year 1979, a monthly average of 1,989 insurance contracts, 707 rates and 21 advertisements were examined for use in Oregon.

The section is staffed by a section head, two rate and form analysts, one clerical supervisor, and three clerks.

SPECIAL PROJECTS SECTION

This unit provides legal research, conduct of administrative hearings, development of administrative rules and proposed legislation, research on insurance company practices in such areas as marketing, underwriting and ratemaking, actuarial research (including projects on behalf of the Workers' Compensation Department), and assistance with other general responsibilities of the Commissioner outside the duties of the other sections of the Division. For administrative convenience the reception and stenographic pool services are also handled by this section.

The section operates under the supervision of the Commissioner and the Assistant Commissioner, and consists of a casualty actuary with an assistant, a hearings officer, a senior citizen coordinator, a management assistant and six reception and stenographic personnel.

EXPENDITURES FOR FISCAL YEAR 1979 - 1980

Personal services	\$1,297,865
Services and supplies	512,709
Capital outlay	<u>1,937</u>

BUSINESS IN THE STATE OF OREGON DURING 1979

Explanation

The next several pages show the accounting results for 1979 of each company for each line of insurance as categorized in the financial reporting format required. These categories do not provide information about some specific insurance coverages, such as products liability, or classes of insureds, such as houses less than five years old. These figures are accounting data intended for use in evaluating the financial condition of each company.

Comparing premiums and losses in this format provides only a rough indication of how appropriately priced each line of business may be for all companies combined. The results reported for a single line, company, and year, may be misleading and are subject to considerable statistical variance as well as artificial mechanics of accounting procedures.

"Direct" is the term used to describe insurance transactions between the insurance buyer and his insurance company before or without regard to reinsurance transactions among insurance companies.

"Premium written" is usually defined as premium billed by property and casualty companies whether or not actually collected. The rules of life insurance accounting, however, require reporting premiums actually collected. This item is a measure of marketing activity in our state for the year.

"Premiums earned" is constructed from premiums written this year and in previous years and in some instances premiums to be written in the future for current coverages. It is approximately the pro rata portion of the premium charged for each policy applicable to the portion of coverage provided which falls within the calendar year.

"Losses paid" is the sum of all payments made during the year to or for the benefit of insurance claimants. These payments include amounts paid in the current year for claims arising from coverage in prior years and exclude amounts which will be paid in future years for claims arising from the current year. Hence, this item is not a measure of the actual cost of current coverages, but only of current cash flows.

"Losses incurred" equals losses paid plus an estimate at the close of the year of the amounts to be paid in the future for all claims arising from the current and all prior years, minus the correspond-

ing estimate made at the close of business for the preceding year. If these estimates were to be exactly correct, then losses incurred would be the actual cost of all claims arising from coverage provided during the current year.

The instructions for page 14 of the annual statement for property and casualty companies, from which these data have been compiled, provides that the incurred losses reported should include estimated amounts unpaid for incurred-but-not-reported (IBNR) claims. These instructions have been changed since the annual report of 1977 data, where IBNR was excluded.

"Dividends paid" is the amount paid to policyholders under participating agreements. These dividends are paid policyholders after coverage for which they paid premiums has expired. The premiums corresponding to the coverage periods for which dividends have been paid in the current year are almost entirely written and earned one to two calendar years before. Hence, dividends paid in 1979 are not strictly comparable to 1979 premiums. Dividends paid to company stockholders are not included.

"Loss ratio" equals losses incurred divided by premiums earned. This is the best accounting representation of the portion of each premium dollar which has been needed to honor the company's promises to pay claims. The figures shown are subject to many artificialities of insurance accounting, such as those explained above, as well as considerable statistical variation between years and among companies.

The permissible or acceptable loss ratios differ according to the organization and marketing methods used by each company, the line of business, and the particular coverage within a line. Fidelity and surety insurance companies, for instance, primarily provide a loss prevention service. Losses are expected to be infrequent and the insurers have recovery rights. Title companies also provide a loss prevention service with infrequent losses expected.

The reports for property and casualty and life companies were obtained from the National Association of Insurance Commissioners (NAIC) central office in Milwaukee, Wisconsin. Data contained herein for fraternal, health care contractors, mortgage guaranty and title companies has been manually compiled by the Insurance Division.

For informational purposes, the Oregon experience of non-authorized (unlicensed) insurance companies is shown separately. ORS 744.345 allows a licensed "surplus lines" agent under certain circumstances to place business with companies other than those authorized by the Insurance Commissioner to do business in Oregon. Since these companies are authorized by the regulator of some other state, or country, the NAIC receives their annual statements.

A list of authorized insurers is available as a separate publication on request from the Insurance Division.
